

AlkorPlan
The Perfect Skin for your Pool

Why does everyone want an Alkorplan Pool Finish?

Pools Made **Perfect.**™

AlkorPlan
Membrane
Systems

Give your pool a smooth, low-maintenance finish

Alkorplan offers the best solution possible for the renovation and restoration of your swimming pool. Its unique properties, durability and reinforced construction provide the very highest level of watertight security and long-term protection for any type of pool.

Alkorplan is quickly and easily installed over any type of surface, and its ability to adapt to all shapes and pool configurations make it the best possible system for renovating older pools or building new ones.

Alkorplan reduces construction and renovation costs because of its outstanding waterproofing and decorative properties and tough, tear-resistant nature. It's an elegant and economical solution for a perfect pool finish.

"The best membrane you can buy at a price you can afford. That's why our membranes have been installed in thousands of pools around the world."

Where to use Alkorplan?

Alkorplan guarantees a durable and watertight pool, regardless of shape, size and construction. Virtually any pool structure can benefit from Alkorplan, whether concrete, gunite, polymer or steel. Alkorplan can be installed over any type of pool construction or renovation materials with minimal or even no surface preparation. Alkorplan is immune to the deterioration that typically occurs with older, less durable pool construction. It will NEVER crack, peel, chip or delaminate.

Alkorplan is recommended for the construction and renovation of all types of pools, whether public or private, in all kinds of climates. It's

guaranteed to be watertight and stay that way for 10 years.

Alkorplan is the perfect solution to renovating typical vinyl liner pools. It provides a durability, longevity and tear resistance that is unmatched by any conventional vinyl liner.

Alkorplan, the intelligent (and economical) choice for your pool

Alkorplan is a tough, reinforced and watertight membrane consisting of two flexible layers of a special PVC with a reinforced polyester mesh. This material has been proven in tens of thousands of pools around the world, even in the roughest commercial and public pools.

Alkorplan is the best solution to water loss in your pool. It fixes problems with older pool shells and stops new pools from developing leaks.

Alkorplan eliminates the problems common with other pool restoration systems or interior finishes. It never cracks, peels, delaminates, chips or falls off the pool wall. Never again will you paint, plaster, patch or seal your pool. With Alkorplan, annual pool maintenance is a simple task, rather than a dreaded and expensive chore.

Dress-up your pool

Alkorplan offers the widest possible range of colors and textures available in a pool construction or renovation system. With Alkorplan, you can select from a diverse array of pleasing, contemporary solutions that restore and waterproof your pool. The colors, textures and innovative designs of Alkorplan give your pool that "high-end" look while providing long-term durability and watertight construction.

"Alkorplan is the best pool finish you can buy at a price you can afford. That's way Alkorplan PVC pool membranes have been installed in tens of thousands of pools around the world. You simply cannot buy a better pool finish, and Alkorplan will make your pool perfect."

Advantages of the Alkorplan reinforced pool membrane

- Resists aging
- Resists atmospheric pollution
- Protected against UV deterioration
- Excellent resistance to typical water treatment chemicals
- Resists bacteria and fungus
- Heat-welded for a watertight and joint-free interior

Alkorplan features a unique surface coating that provides optimum protection against stains, abrasion, dirt, pool chemicals and scratching. With reasonable care and maintenance, Alkorplan membranes can easily last the life of your pool. 250,000 pools protected and made watertight with Alkorplan over the last 20 years are proof that this pool finish WORKS.

Total waterproofing, total leak-proof pools

Alkorplan is the only pool renovation or construction material that guarantees a waterproof, leakproof finish, provided it has been correctly installed by a trained and authorized pool professional.

With the reinforced Alkorplan membrane, you will enjoy a completely waterproof pool shell in combination with a high quality decorative finish that is guaranteed to stay that way. Only an Alkorplan PVC membrane offers the unique 10-year guarantee for the waterproofing capabilities.
